

A BETTER WAY TO

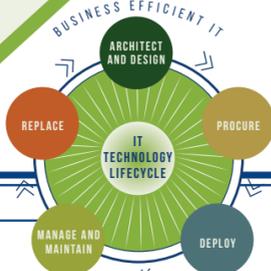

DEVELOP AN IT STRATEGY AND ROADMAP

Getting to a place where IT consistently delivers high service levels in a cost-effective manner can be a difficult journey for IT leaders. But with Xigent's Strategy Services and BEI.navigatoR, IT leaders can develop a multi-year IT strategy and roadmap to improve the connection they have with the business, as well as their IT outcomes.

WHAT IS BEI?

Where IT resources - (people, process, and technology) are more fully utilized with Xigent's methodology to deliver greater outcomes while minimizing IT cost and inefficiency.

WHAT IS BEI.NAVIGATOR?

BEI.navigatoR is a consulting service that helps IT leaders identify where they are now and the activities needed to build Business Efficient IT to support their desired outcomes.

FORMS THE FOUNDATION FOR ACHIEVEMENT OF BUSINESS EFFICIENT IT (BEI)

CREATES AN APPROACH BASED ON YOUR SPECIFIC BUSINESS REQUIREMENTS

PROVIDES A CLEAR ROADMAP THAT'S REVIEWED ON AN ONGOING BASIS

FOCUSES ON YOUR ENTIRE IT OPERATION, OR INDIVIDUAL COMPONENTS (LIKE STORAGE OR VIRTUALIZATION)

ALIGNS LEADERSHIP UNDER ONE STRATEGY, AND ONE ROADMAP

THE BEI.NAVIGATOR PROCESS

By combining our mid-market experience with best practices from enterprise maturity models, our methodology helps you create Business Efficient IT that produces optimal service levels in the most cost-effective manner.

1 ESTABLISHING GOALS

We start by helping you identify the appropriate maturity goal for your organization through analysis of business objectives and discussions with leadership.

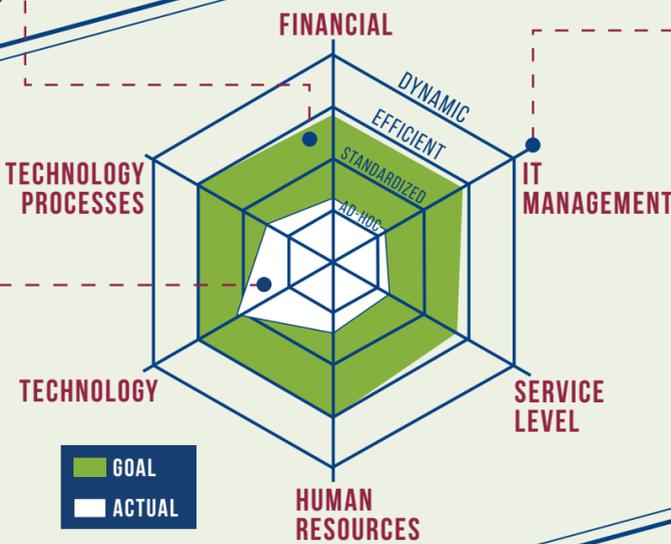

3 CREATE A BEI STRATEGIC ROADMAP

We'll develop a strategic roadmap to close the identified gaps and review and refine the roadmap with leadership.

2 ASSESSMENT AND GAP DETERMINATION

We then evaluate your IT maturity across these six dimensions covering 90+ unique elements highlighting gaps to performance targets.

4 PERIODIC RECURRING REVIEW

We'll schedule an on-going review of the roadmap to ensure that it adapts to any pivots, and remains valid for where the business is headed.

WHAT ARE TYPICAL OUTCOMES?

Through the BEI.navigatoR process, we help our customers improve outcomes and move their IT infrastructure toward a more dynamic, integral position in the business.

A practical and actionable plan

Optimized IT performance (Regardless of IT investment)

A united leadership team

GET ON A PATH TO BUSINESS EFFICIENT IT

We believe that IT can and should deliver greater value to the business. Contact us today to learn how we can help you create Business Efficient IT that optimizes IT performance and outcomes, regardless of your investment.
